STEMFIE®

SAFETY NOTICE

# Play safely with STEMFIE

STEMFIE is a free, 3D-printable construction toy. Please keep this notice where the parts are used: in the classroom, the makerspace, or at home.

**Contains small parts that are a choking hazard. Not suitable for children under 3. Suitable for ages 3 and up under adult supervision.**

- Pins, screws, nuts, and small beamscan be swallowed or inhaled. Keep them away from children under three and from any child who still puts things in their mouth.
- Printed parts are not certified for food or oral contact. They are not to be put in the mouth.
- Let fresh prints cool, remove loose strands and supports, and smooth any sharp edges before handing parts to a child.
- Rubber bands, springs, and motors store energy. An adult sets up and tests those builds first.
- A cracked part can be sharp. Discard it and print a new one.
